

DATA SHEET

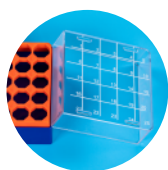

Cryo Boxes

ISO 9001

Features

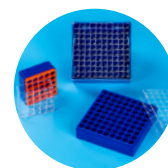

The operational temperature can reach as low as -196°C .

Transparent covers are labeled with numbers, simplifying sample identification.

Various types are available to cater to diverse experimental requirements.

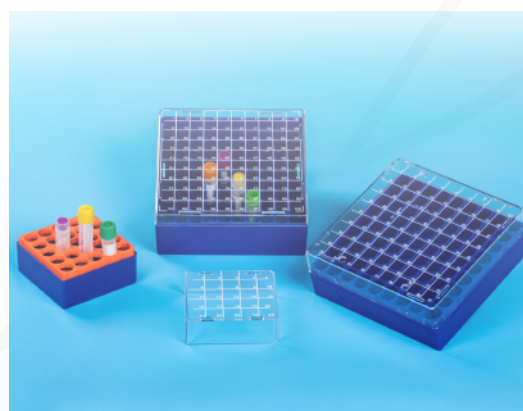

Raw Material

These products are manufactured from polycarbonate (PC).

Application

Cryogenic boxes find application in the storage of materials within ultra-low or cryogenic freezers. Broadly speaking, they are predominantly employed for storing biological samples, facilitating cryopreservation, supporting cryogenic research, and serving various other purposes.
