

# DATA SHEET

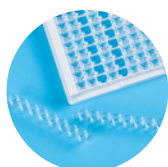

## ELISA Plates

ISO 9001

### Features

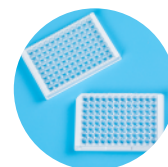

The ANSI-SLAS footprint is perfectly compatible with automated pipetting stations.

With the convenience of detachable tube strips, you can adeptly handle multiple samples simultaneously.

Available in both bottom C and bottom F variations.

Our product is sterilized and free from DNase, RNase and DNA.

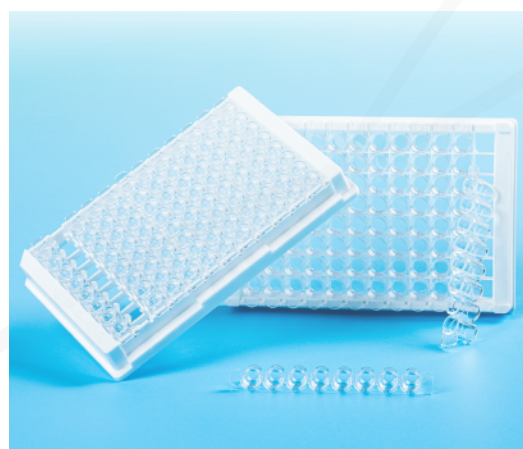

### Raw Material

The frame are crafted from ABS, while the tube strips are manufactured from polystyrene.

### Application

The ELISA plate plays a crucial part in ELISA detection, serving as a fundamental tool for accurately pinpointing specific proteins or molecules within a sample of interest. Its wide range of uses encompasses important areas, including disease diagnosis, immunology research, and the comprehensive landscape of drug development and screening.
